題目(和文)	
Title(English)	Seasonal Changes in Microbial Consortia and Fate of Human Intestinal Bacteria in Tonle Sap Lake
著者(和文)	UngPorsry
Author(English)	Porsry Ung
出典(和文)	学位:博士(工学), 学位授与機関:東京工業大学, 報告番号:甲第10974号, 授与年月日:2018年9月20日, 学位の種別:課程博士, 審査員:丹治 保典,小林 雄一,和地 正明,松田 知子,平沢 敬
Citation(English)	Degree:Doctor (Engineering), Conferring organization: Tokyo Institute of Technology, Report number:甲第10974号, Conferred date:2018/9/20, Degree Type:Course doctor, Examiner:,,,,
学位種別(和文)	博士論文
Category(English)	Doctoral Thesis
種別(和文)	要約
Type(English)	Outline

Thesis outline

Table of contents

List of tables

List of figures

CHAPTER 1. General Introduction

- 1.1. Connection between Tonle Sap Lake and Mekong River
- 1.2. Lifestyle of floating villagers
- 1.3. Important of wastewater treatment process
- 1.4. Establishment of the microbial consortia in the environment
- 1.5. Aims of this research

CHAPTER 2. Biological water quality of sewage, Tonle Sap River, and Mekong River

2.1. INTRODUCTION

2.2. MATERIALS AND METHODS

- 2.2.1. Monitoring sites and sample preparation
- 2.2.2. Culture-based analysis
- 2.2.3. DNA extraction
- 2.2.4. Gene-based analysis

2.3. RESULTS

2.3.1. *E. coli* and coliform concentration in the sewage, Tonle Sap River, and Mekong River

2.3.2. Total 16S rRNA gene copy number

2.3.3. Microbial consortia in the sewage, Tonle Sap River, and Mekong River

2.4. DISCUSSION

2.5. CONCLUSIONS

CHAPTER 3. Seasonal changes in the microbial consortia in Tonle Sap lake

3.1. INTRODUCTION

3.2. MATERIALS AND METHODS

- 3.2.1. Study sites
- 3.2.2. Preparation of water and sediment samples
- 3.2.3. Analysis of microbial consortia
- 3.2.4. Microbial consortia structure, diversity and seasonal pattern
- 3.2.5. Species relationship and environmental driven factors

3.3. RESULTS

- 3.3.1. Samples characteristics
- 3.3.2. Microbial diversity and total 16S rRNA gene copy number
- 3.3.3. Structure of microbial consortia
- 3.3.4. Spatiotemporal pattern of the assigned genus
- 3.3.5. Species relationship and environmental driven factors

3.4. DISCUSSION

- 3.4.1. Distribution of high abundant consortia in different water depth and sediment
- 3.4.2. Shifting of the microbial consortia and their diversity in different seasons

3.5. CONCLUSIONS

CHAPTER 4. Fate of *Escherichia coli* in sewage influent and activated sludge

4.1. INTRODUCTION

4.2. MATERIALS AND METHODS

- 4.2.1. Wastewater samples
- 4.2.2. Characterization of dialysis membrane
- 4.2.3. Fate of *E. coli* K12 in influent and activated sludge
- 4.2.4. Quantification of bacteriophage infectious to *E. coli* K12
- 4.2.5. Quantification of total 16S rRNA and relative abundance of microbial consortia

4.3. RESULTS

- 4.3.1. Penetration of ions and nutrients through the membrane
- 4.3.2. Fate of indigenous *E. coli* and coliform in WWTP
- 4.3.3. Fate of *E. coli* K12 in influent and activated sludge
- 4.3.4. Effect of bacteriophage on *E. coli* K12

4.4. DISCUSSION

4.5. CONCLUSIONS

CHAPTER 5. Fate of human intestinal bacteria in floating village, Tonle Sap lake

5.1. INTRODUCTION

5.2. MATERIALS AND METHODS

- 5.2.1. Study sites and water quality analysis
- 5.2.2. Preparation of cultures for the in-situ experiment in Kampong Luong floating village
- 5.2.3. Preparation of cultures for the in-situ experiment in Chhnok Tru floating village

5.2.4. Sample collection in Chhnok Tru floating village for microbial consortia analysis

5.2.5. DNA extraction

5.2.6. Quantification of bacterial abundance by gene-based analysis

5.3. RESULTS

5.3.1. Physicochemical characteristic of water samples

5.3.2. Fate of human intestinal bacteria in Kampong Luong floating village

5.3.3. Fate of human intestinal bacteria in Chhnok Tru floating village

5.3.4. Total 16S rRNA gene copy number in Chhnok Tru floating village

5.3.5. Microbial consortia structure and their diversity in Chhnok Tru floating village

5.4. DISCUSSION

5.4.1. Fate of human intestinal bacteria in floating villages

5.4.2. Microbial consortia structure in Chhnok Tru floating village

5.5. CONCLUSION

CHAPTER 6. Conclusions and Perspectives

6.1. CONCLUSIONS

6.2. PERSPECTIVES
